

IF A MAN

Should deliberately throw \$25.00 into the fire he would be called a fool or a lunatic; if a man deliberately spends \$25.00 more for a suit of clothes than is necessary, when he could get the same quality, style and fit, and save that \$25.00 for some other purpose, shouldn't he be called the same name? Hundreds of men right around here have found out that to dress well does not necessarily mean to dress expensively. For instance, they buy ready-to-wear clothes bearing this label:

Save a lot of money, yet are just as well pleased as though they had the garments made-to-order.

That is just one way of saving; come in and see us and we will show you how to save on other articles of apparel:

LETTER FROM WYMAN.

The following letter from Surgeon General Wyman was read:

Washington, September 22, 1902.
Hon. H. C. Sloggett, President Board of Health, Territory of Hawaii, Kapualwa Building, Honolulu, Hawaii.
My Dear Sir: It gives me great pleasure to receive your letter of September 9th, and to read the handsome tribute to the worth and efficiency of the representative of this service at Honolulu. I also thank you for your kind acknowledgment of the services rendered by myself in my official position.

Regarding the return of Dr. Cofer, there is no intention at the present time to relieve him permanently from his post, he having two months leave of absence.

This bureau has always been in sympathy with the efforts of your Board, which have been so intelligent and earnest in the past, and I earnestly hope and believe that, with the experience that comes to all of us in meeting grave situations, a measure of efficiency will be reached in the near future both by the national and territorial authorities which will prove effective in our common and perpetual campaign against contagious and infectious disease.

Respectfully,
(Signed) **WALTER WYMAN,**
Surgeon-General.

REPORT UPON THE CITY'S HEALTH

Reports for the month of September were made by health officials to the Board of Health yesterday.

The reports of the sanitary inspectors for Hilo and Honolulu were received and filed.

The report of City Sanitary Officer Tracy for the month is as follows:

October 8, 1902.
Dr. J. S. B. Pratt, Executive Officer,
Board of Health:

Sir:—Following is the report of the City Sanitary Officer for September, 1902:

During the month seventeen applications for permits to build have been filed and nine have been approved. All seven permits applied for previous to September 1st have been approved. Eight permits are still in my hands, four for further investigation and four because the plans are in violation of the regulations and are to be altered.

One builder without permits was notified and filed his application.

Three buildings were altered so as to conform to the sanitary regulations.

Two cesspools have been located during the month outside the sewer limits.

I have made 355 inspections, seventy-three of which were of new buildings. Nineteen certificates for restaurants, lodging house or hotel licenses have been applied for and sixteen have been issued. Three are held until the places are put into sanitary condition. Of the certificates applied for previous to September 1st, six are still held as the work is not completed.

The number of adults which can by law be lodged in these buildings licensed are 567.

One formal complaint has been filed and the matter is still in hand. Thirteen forty-eight hours notices have been served.

During the month Inspector J. McQueen has spent most of his time in enforcing the regulation requiring swill to be carried in tightly covered containers, with the result that there are now seen on the streets numbers of new galvanized iron slop cans and the wagons are in good shape. He has also been after the pens and gotten the majority of them into good condition.

One man was arrested and fined \$2 and costs before he considered it necessary to fix up.

Most of my time during September was spent investigating the cemeteries.

BARBERS CAN WORK ALL DAY SUNDAY

Judge Wilcox Says Nine O'clock Sabbath Law Is Unconstitutional.

Barbers can shave customers seven days in the week if they want to, Judge Wilcox having decided yesterday in his court that the law prohibiting barbers from plying their trade after 9 a. m. on the Sabbath morn is unconstitutional. Five Chinese barbers arrested last Sunday for violating the law as it reads in the Penal Code of 1897, appeared before the magistrate for trial and were represented by Attorney Brooks. Brooks presented an array of authorities upon the subject tending to show that such a law was unconstitutional in that it discriminated against a certain class in favor of others. The law which the High Sheriff recently commenced enforcing to the letter against the barbers of all nationalities reads as follows:

"All labor on Sunday is forbidden, excepting works of necessity or mercy, in which are included all labor that is needful for the good order, health, comfort or safety of the community, or for the protection of property from unforeseen disaster, or danger of destruction or injury, or which may be required for the prosecution of or attendance upon religious worship, or for the furnishing of opportunities of reading or study. Provided, however, that on Sunday until 9 o'clock in the morning, barber shops may be kept open and fresh meat and fresh fish may be sold and delivered; that until 9 o'clock in the morning and after 3 o'clock in the afternoon milk may be delivered and cattle, sheep and swine may be slaughtered; that during the entire day meals may be sold, to be eaten on the premises where sold or served elsewhere by caterers, drugs, medicines and surgical appliances may be conveyed to and from vessels leaving and arriving at port on that day; that the railroads may on Sunday carry passengers to connect with the steamers, and public carriages, horse-cars and licensed shoreboats may convey passengers for hire, and that all labor which may be lawfully performed on Sunday shall be conducted, as far as possible, so as not to interfere with the right of the community and of each individual to quiet and repose."

prosecution. He said the law was a very old one but he thought it protected barbers rather than discriminated against them. It was his opinion that the Supreme Court should be the body to pass upon the constitutionality of the law.

Judge Wilcox said he was an officer of the legislature which had framed

the law, Chas. R. Bishop presenting it. At the time there was considerable comment as to whether or not it was constitutional.
